**AMBROSE IVY,**  
County Assessor, Curry County, New Mexico

Hon. Lyman E. Shaw, of this county, has introduced a bill in the legislature which, if passed, will make compulsory on railway, mining and manufacturing corporations to maintain a twice-a-month pay day. The state of Texas has such a law which was passed several years ago. The full text of the bill that Mr. Shaw has introduced is as follows:

Be It Enacted By the Legislature of the State of New Mexico:

Section 1. That all railway, mining and manufacturing corporations operating in this state shall designate regular days not more than fifteen days apart as days fixed for the payment of wages to all employees thereof, paid in this state, and shall post and maintain notices, printed or typewritten, in plain type in at least two conspicuous places, where said notices can be seen by said employees as they go to and from their work, setting forth said days as "pay days." And every such corporation shall pay on each of said days to its employees in lawful money of the United States, or in negotiable bank check, payable on demand, of the date of said day, all wages due said employees up to such pay day, except it may withhold wages for not more than sixteen days labor due said employees rendering in the service of such corporation.

Sec. 2. Every such corporation violating any of the provisions of this act shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than \$2500 nor more than \$5000 for each offense.

Sec. 3. All acts or parts of acts in conflict herewith are hereby repealed.

Albuquerque Journal's Comment.

Speaking of the bill introduced by Mr. Shaw, the Albuquerque Journal says:

House Bill No. 24, introduced by Representative Shaw of Curry county, is one that will be of interest to all wage-earners of New Mexico, who are employed by railway or mining corporations, briefly it is a bill to require corporations to designate and maintain regular pay days for their employees not more than sixteen days apart, at which time an employee shall be paid all that is due them except such an amount not to exceed sixteen days pay as may be withheld under the rules of the company.

Under the present system of paying wages as employed by many corporations in New Mexico, especially the railroads, if a man enters the employment of the company on the first of the month he draws no pay for forty-five long and weary days. Railroad men are a more or less peripatetic class, and when one of them takes a position in a town where he has never lived before he is unless he has something laid by, decidedly up against it. As explained by Mr. Shaw, he is prevented from buying his supplies and doing his other trading to the best advantage to himself because he must perforce go to the place where he can get credit and in many instances a real hardship results.

The bill has been up before other legislatures in the past but nothing has ever come of it. Mr. Shaw declares that he will press his measure vigorously in the present legislature and that he is hopeful of securing favorable action on it.

It seems, somehow or another that Curry county has something of a weakness for sending railroad men to the home. W. W. Nichols, formerly representative from that county is one of the best known conductors on the Santa Fe system, and Representative Shaw, who now occupies the seat from that county was, until a certain unfortunate occurrence, also a conductor on the same system.

Last spring Mr. Shaw, a tall, splendid specimen of physical manhood, in the perfect bloom of health, started to climb up the little iron ladder on the side of a freight car—all in the line of a days work. Something gave way and he fell under the car. When he came out of the hospital he was wearing an artificial leg and his railroading days were over.

Shaw had never taken any part in politics except to vote the ticket, straight and regular, and to help any of his friends who might be candidates for office. While he was lying on a hospital bed, recovering from his injuries the democratic convention was held.

### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and adding nature to doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. ### GOING SOME.

A few months ago a class of boys, known as the Live Wires, was organized in the Christian church. There were three present that first Sunday. Now there is an enrollment of 24. Last Sunday 18 were present. This class has led every class in the school for several Sundays in attendance and collection. Next Sunday we want to have at least 24 present. If we have this number our teacher is going to take us in automobiles out to Moyer Chapel, give us a big dinner at some Clovis eating house and have a picture taken of the class. He will have a cut made from this photo which will be run in some of the local papers and also in some of the national papers with a history of the class. Boys, let's be out at least 24 strong next Sunday. What say you?
